

# What Does Your Motorcycle Manufacturer Say?

## Harley- Davidson:

Fuels with an ethanol content of up to 10 percent may be used in your motorcycle without affecting vehicle performance.

## Indian:

Gasoline containing up to 10% Ethanol can be used.

## BMW:

Recommended fuel grade: Regular, unleaded (maximum 15 % ethanol, E15)

## Yamaha:

Gasohol containing ethanol can be used if the ethanol content does not exceed 10% (E10).

## Victory:

Gasoline containing up to 15% Ethanol can be used.

## Kawasaki:

Gasoline containing up to 10% ethanol is approved for use.

## Honda:

The following fuel blends are EPA-approved and have been approved for use in your motorcycle: Ethanol (ethyl alcohol) up to 10% by volume

## Triumph:

Ethanol fuel is a mixture of 10% Ethanol and 90% gasoline and is often described under the names 'gasohol', 'Ethanol enhanced', or 'contains Ethanol'. This fuel may be used in your Triumph motorcycle.

## Suzuki:

Blends of unleaded gasoline and ethanol (grain alcohol), also known as "GASOHOL", may be used in your vehicle if the ethanol content is not greater than 10%.
